

# Ingredion Guest Lecture

## Why Health and Safety Matters

The School of Science and Health in partnership with Ingredion cordially invites you to join us for guest lectures by Colin Winnie and Makaporn Petkhiaw. Colin and Makaporn will be speaking on the development and management of safety, health, environment and security programs from a global food producer's perspective.

Ingredion turns plants such as corn tapioca, rice, pulses and potatoes into the sweeteners, starches, nutrition ingredients and biomaterials used in a wide variety of products that many of us consume and use on a daily basis. Ingredion is committed to the provision of safe and healthy working environments, and will be sharing their experiences and insights during this guest lecture.

The lecture will be held at the **Hawkesbury Campus, Building G6, Level 1 Room 18, 9:00 to 10:30am on the 25th March 2019**

To register your attendance please contact [ma.davidson@westernsydney.edu.au](mailto:ma.davidson@westernsydney.edu.au)
